GENERAL INFORMATION

Starbar[®] QuikStrike[®] Fly Scatter Bait is an effective fly bait formula that contains Muscamone[®] fly attractant. Baits can be an important tool in the overall management of house fly populations. An integrated approach is recommended which includes: sanitation, manure management, physical barriers, sprays, mechanical traps and periodic rotation of baits with different modes of action.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

-------------------	---

If in eyes	<ul style="list-style-type: none"> • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Have person sip a glass of water if able to swallow. • Do not give anything by mouth to an unconscious person.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-347-8272.

ENVIRONMENTAL HAZARDS

This product is toxic to shrimp. Do not apply directly to water, areas where surface water is present, or to intertidal areas below the mean high water mark. Drift or runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment. Do not apply this product if bees are actively foraging in the treatment areas.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

GENERAL USE RESTRICTIONS

Starbar® QuikStrike® Fly Scatter Bait should not be used inside homes, or any place where children or animals might be present. Do not spread granules or use bait stations within reach of children or animals. Do not apply this product in a way that will contact workers or other persons.

Do not apply where poultry or animals, especially dogs and young calves, can pick it up or lick it. Do not use on edible product areas of food processing plants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Do not use as a scatter bait indoors. Do not use as a scatter bait in food/feed areas of food/feed handling establishments. Do not use around commercial dumpsters which are not enclosed.

APPLICATION PROCEDURES

SCATTER BAIT

Where to Apply

Starbar® QuikStrike® Fly Scatter Bait may be used around the outside of milking parlors, broiler houses, kennels, canneries, beverage processing plants, meat and poultry processing plants, food processing plants, and refuse dumpsters associated with these establishments and the walkways of caged layer houses. Do not use around commercial dumpsters which are not enclosed. May also be used in fenced or otherwise enclosed areas inaccessible to children and around the outside of restaurants, supermarkets, commissaries, and bakeries.

Methods of Application

Scatter **Starbar® QuikStrike® Fly Scatter Bait** granules, directly from container, onto desired locations. Scatter granules evenly on surfaces, avoid placing bait in piles. Apply at a rate of ¼ lb per 500 square feet of area. Reapply as bait is consumed to maintain control. Start applications at the beginning of the season to help keep house fly populations manageable. Avoid application to windy areas as house flies will avoid these areas; apply bait in several locations, concentrating on areas where house flies are a problem.

BAIT STATIONS

Where to Apply

Starbar® QuikStrike® Fly Scatter Bait stations may be used in house fly infested areas such as, in and around milking parlors, broiler houses, caged layer houses, canneries, beverage processing plants, meat and poultry processing plants, food processing plants, kennels, stables, refuse dumpsters, warehouses, loafing sheds, swine facilities, and feed lots. May also be used in and outside the non-food/feed areas of restaurants, barns, taverns, supermarkets, commissaries, and bakeries.

Methods of Application

Use **Starbar® QuikStrike® Fly Scatter Bait** in any commercial fly bait station secured at least 4 feet above the ground. One bait station should be positioned in each 250 square feet of area with up to 2 ounces of bait per station. Place bait stations in areas inaccessible to food-producing animals, pets, and children. Concentrate bait station placements in areas where house flies are a problem including dumpsters, stables, trash piles, or other areas that attract house flies. Avoid placing bait stations in windy areas as house flies will avoid bait stations that move. Reapply as bait is consumed to maintain control.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in a cool, dry place away from heat or open flame and inaccessible to children.

Disposal: If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

For information or in emergency, call **1-800-347-8272**.
